

Switchgear

Low Voltage Switchgear

Our Product Range

Tanelec has a proven record for producing high quality switchgear which meets IEC standards. This we have done by combining both basic local knowhow and the latest global technology to produce and design our products to offer defined excellence.

Our Low Voltage switchgears are used extensively in the generation, distribution and general use of electrical energy.

Other Switchgear products include

- Transformer and generator changeover controls
- Distribution Panels
- Metering panels
- Metering boxes
- Solutions specific to customer needs

Benefits

Benefits of using our Low Voltage Power Factor Correction equipment are:

- Easy installation
- Reduced energy costs
- Lower losses for cables and transformers
- Increased power transmission capacity in cables
- Increasing transformer capacity
- Improved voltage stabilization in long cables

Quality Control

All our switchgear products are 100% tested in accordance with the relevant IEC standards
