

# Switchgear

## Medium Voltage Switchgear

# Our Product Range

Tanelec has a proven record for producing high quality switchgear which meets IEC standards. This we have done by combining both basic local knowhow and the latest global technology to produce and design our products to offer defined excellence.

Our Medium Voltage (MV) Switchgear range features the Unisafe Switchboard which is easy to safely operate and is efficient on space.

Tanelec also manufactures a range of other MV products:

- Switchboards up to 24Kv
- General control panels
- Metering panels

## *Benefits*

Benefits of using our Medium Voltage switchgear are:

- Front access cubicles which are space efficient
- Can be used to extend already existing switchboards
- Longer lasting switchboards which are resistant to corrosive agents
- Are built to ensure greater user safety
- Designed with individual compartments, circuit breakers, busbars, cable (feeders) and instrument compartments.

## *Quality Control*

In an effort to supply quality products we put all our products through the most stringent tests to ensure optimum performance in accordance with IEC standards.
